25X1

* Comment: These over-limit width box cars are designated as "Fahrzeuge" in the German, and refer to special box cars which because of their width can proceed only with special clearance.

25X1

** Comment: In several previous reports in this series "Expost" and "Exportat" have been listed; still was an error in transmission and should merely have been "Export". bicycles, electrical appliances, radio tubes, etc. are usually included in such export shipments.

25X1

** Comment: Outgoing military freight usually refers to the personal property of Soviet Control Council and Soviet Army personnel enroute to the U.S.S.R.
